

FOREIGN COMPANIES : MY PROCEDURES IN FRANCE

DECLARE MY SALES REPRESENTATIVE BY DSN

I currently employ one or more multi-brand sales representatives (VRP) who work in France, I am registered as an employer and am affiliated to Urssaf foreign companies service.

The declaration methods for my multi-brand sales representatives (VRP) are changing, from **January 1, 2022** I switch to the **Déclaration Sociale Nominative (DSN)**.

WHAT IS DSN?

DSN is a monthly file resulting from the processing of the payroll. It enables me to communicate the data required for :

- the calculation and payments of all social security contributions ;
- the management of my employees's social protection to social institutions and agencies.

Its transmission is **unique**, **monthly** and **dematerialised**.

This can be done either by myself or by **delegation**, through an agreement, involving one single representative of my company, who must be domiciled in France.

To help me with this process, information are available online at : www.net-entreprises.fr > «La déclaration sociale nominative DSN».

The representative agreement form is available at : [Forms > Agreement](#).

You can contact us to schedule a dedicated appointment focused on your situation !
